

# CHARACTER counts!

## Parents, how will you talk to your kids about sex?

Talli Moelling has fifteen years of extensive experience in the field of sex education. As the Executive Director of a medical Pregnancy Resource Center, Talli has many valuable insights and engaging, practical methods for teaching teens about healthy relationships and encouraging them to abstain from sex.

Talli's foremost passion is always evident; to educate and motivate **parents** to stand up and speak the truth about sexual promiscuity to their teens.

During the **90 minute interactive** presentation, Talli equips parents to engage in intentional conversations and identify teachable moments during everyday life interactions with their teens.

Parents will preview an inside look at the real world of teen relationships and receive practical tools to handle the everyday concerns that automatically begin when our sweet, young and innocent sons and daughters enter into a teen culture that is infiltrated with the promotion of unhealthy relationships.

**~Make life long choices with your brain, not your body~**

\*All material aligns with current GA standards. Approved in Fulton and Forsyth County. Currently booking classroom presentations for next semester: [www.theswatteam.org](http://www.theswatteam.org). Fees apply.

## Comments from the Target Audience:

*Talli Moellering is a highly engaging and down-to-earth speaker when it comes to addressing those sensitive topics that parents must, but are many times tentative to, discuss with their teens. I have had the great pleasure of hearing Talli speak a number of times to our parents, and at each session she presents a wealth of information, facts, and realistic problem-solving possibilities that parents can use when talking with their young teens.*

*In her latest parent presentation, "Getting Results . . . Changing Lives", Talli's main objective to empower parents to talk to their teen about the hot topic of teen sex and related dangers was evident. She uses a "whole person" approach which includes the physical, psychological, social and financial connections to teen sexual activity. Her statistics and facts are compelling . . . her sense of urgency is palpable . . . and her discussion tips are frank, realistic and practical. Parents walk away with much to think about, armed with a plethora of ideas for these frank discussions with their teens, and asking when Talli can come back and speak again! The fact that she is a mother, herself, of 3 teenage daughters and lives in the community, thus knowing quite well the mores and values of this area, gives Talli enormous credibility.*

*Talli is a wonderful speaker whom parents can easily sit and listen to for hours! I highly recommend her for such school-sponsored or PTSA-sponsored parent meetings. She is one speaker whose message is so timely and on-target for our teens and these times!* **Middle School Principal, Forsyth County**

~

*"Every parent's dreaded nightmare is the day they have to have the sex talk. Talli Moellering provides invaluable resources for every parent who longs to prepare their child for the realities of this highly sexualized world, but has no idea how to do it. Talli will give you both tools and insights into the critical issues and educate you about what and how to talk to your teen."*  
**Licensed Professional, MA MFT, LPC, Woodstock, Georgia**

~

*"Aaaah...words of truth, I agreed with you 100%. Now my mission is to implement your ideas! It's do-able. God never promised it would be easy to parent but has promised he would never give me more than I can handle with Him by my side. Thank you for giving me the motivation to renew my commitment to open communication and listening more than I talk."* **Mother of Two Teen Daughters and One Teen Son, Cumming, Georgia**

~

*"I thought the presenter spoke clearly about all of the bad effects if you go "that" way. Also, I liked the facts that she said about how some of the things if you go "that" way can lead to lifelong issues. I never really think about that. Mostly now that she told us what to do and what the best decision is and that "that" way can lead to risky things and how it can cause you to have struggles for a long time, I know what's right to do and what is definitely not right to do. Actually, I liked it so much I told my friend about it and we both made posters in our neighborhood and put them up."* **7<sup>th</sup> grade student, Fulton County Middle School**

~

*"I went into this presentation with a very bad attitude. I felt like it was going to be an hour of NO! But, I was a little surprised. Ms. Talli didn't say NO, she explained that we do have a choice and then she linked the choice to our future. I had never really thought about it like that. She shared a story of the perfect wedding and then talked about the wedding not being a night of comparison, which is awkward, but she made a point. I have already done some "things" but I am going to rethink it".* **9<sup>th</sup> grade student, Forsyth County High School**
